Utilizing Innovative Technology
 to Achieve Exceptional Results
 Presented by
Scott D. Ganz, DMD

Course Location: Flame's Steakhouse, 533 N. State Rd., Briarcliff Manor, New York, 10510. Tel: (914) 923-3100
 Wednesday, January 30, 2008
Registration: 12:30pm
Conference Time: 1:00pm - 5:00pm followed by dinner
How to Register: Pre-registration is requested. Please complete the attached registration form and mail to DP/Mt. Vernon 161 MacQuesten Parkway South, Mt. Vernon, NY 10550 or fax to (914) 664-2538. This program is designed for dental clinicians of every level.
Fee: \$40
Registration Limits/Deadline: To provide each participant with a focused and personalized experience, the number of registrants is limited for this course and registration is accepted on a first-come, first-serve basis. The deadline for registration is January 23, 2008.

Atlantis Components, Inc. and DP/Mt. Vernon Americus reserve the right to cancel this program no later than 14 days prior to the course date.

CE Credits: Atlantis will award each attendee 4 CE credits. Atlantis is an ADA CERP Recognized Provider.

Continuing Education credits awarded for participation in the CE activity may not apply toward license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board.

Utilizing Innovative Technology to Achieve Exceptional Results

Presented by Scott D. Ganz, DMD

This seminar is
 co-sponsored by Atlantis
 Components, Inc. and
 Anthony Del Vecchio, DDS

Scott D. Ganz, DMD

Graduated from the University of Medicine and Dentistry - New Jersey Dental School. He completed a three-year specialty program in maxillofacial prosthetics at M.D.

Anderson Cancer Center in Houston, Texas. This has been followed by 20 years clinical experience with most major implant systems available today.

Dr. Ganz has published extensively in scientific and professional journals. He has delivered presentations both nationally and internationally on implant dentistry and computer utilization for diagnostic, graphical, and treatment planning applications in dentistry. He has been a featured speaker for numerous organizations including AO, AAOMS, AAID, AAMP, ICOI, and the ACP. He is a Diplomate of the International Congress of Oral Implantologists, a Fellow of the American Academy of Maxillofacial Prosthetics and the Academy of Osseointegration, and a long time member of the American College of Prosthodontists.

Dr. Ganz is a member of the Board of Directors of the New Jersey Section of the American College of Prosthodontists for which he is a past president. Currently he is on the staff of Hackensack University Medical Center, and the University of Medicine and Dentistry of New Jersey.

Dr. Ganz has also been a pioneer in the development of interactive multi-media presentations and educational material. He maintains a private practice for prosthodontics, maxillofacial prosthetics, and implant dentistry in Fort Lee, and Ridgewood, New Jersey.

Utilizing Innovative Technology to Achieve Exceptional Results

LEARNING OBJECTIVES:

- Participants will learn how Atlantis can increase profitability, simplify implant treatment protocols, and provide optimal esthetic results.
- Surgeons will learn how to increase patient referrals.
- Restorative clinicians will learn how to eliminate final impressions and cord-packing yet still achieve perfect gingival margins on restorations.
- Restorative clinicians will learn how they can decrease chairtime by 50% or more with the Atlantis Abutment System.
- Participants will learn how Atlantis Abutments can be used in any implant protocol including:
 - Two Stage with Stage One Indexing
 - Two Stage without Stage One Indexing
 - Single Stage
 - Immediate Loading
 - Early Loading
 - Combined Cases
- Participants will learn how Atlantis Abutments can improve the clinical outcomes of even the most complicated implant cases

Join us to learn about these topics and many more!

Atlantis' patient-specific and clinician-specific designs help dentists increase profitability by decreasing chairtime, eliminating final impressions and cord packing, and increasing patient referrals. In addition, Atlantis abutments provide optimal esthetic results by providing an anatomically correct abutment earlier in the healing cycle, thereby creating a more esthetic and potentially faster solution for the patient.
